Health

- The World Health Organization (WHO) defines health as a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.
- Explanation: The World Health Organization (WHO) says that health means being completely well in your body, mind, and social life, not just being free from illness or problems. So, it's about feeling good all around, not just avoiding sickness.

Signs of Good Health

1. Absence of the diseases
2. Normalcy of voice and complexion
3. Proper nourishment of body
4. Good strength
5. Desire for food
6. Relish at meal time
7. Proper and timely digestion of the ingested food
8. Timely sleep
9. Non-appearance of abnormal dreams
10. Easy awakening
11. Easy elimination of urine and feces
12. Overall normalcy sense organs of mind, intellect and associated with no other unhealthy features.

Happiness

- Happiness is a positive emotional state characterized by feelings of joy, contentment and satisfaction. It can be experienced in moments of pleasure, personal achievements, meaningful relationships, on even daily activities.
- Explanation: Happiness is when you feel really good and positive. It can come from having fun, reaching goals, enjoying relationships, or just doing things you like every day.
- "Prasanna " means Happiness. According to Patanjali "Chitta " is made up of mind, intellect, memory and ego function of consciousness. Our yoga style facilitates the process keeping the " chitta " happy.

Happiness

❖ Lets answer these questions:

1. Do you want to have good relationship with the members of your family?
2. What is naturally acceptable to you: to have good relationship or to have feeling of opposition?

OR

Happiness

- ❖ The answer to this question is clear: to have good relationship is naturally acceptable to us.
- ❖ Many times we are able to have good relationship with the members of our family, friends, near and dear.
- ❖ And we observe that we are happy during those times.

Happiness

- ❖ When friction come to relationship for some reason, we may have a feeling of opposition with others.
- ❖ When we observe closely, we find that whenever we have a feeling of opposition, we don't talk to that person, we turn our face away from that person, why?
- ❖ We try to be away from that person, why? Because we feel uncomfortable.

Happiness

- ❖ To have a feeling of opposition, it is NOT naturally acceptable to us.
- ❖ Whenever we have a feeling of opposition with others, we feel uncomfortable and unhappy within and also with others.

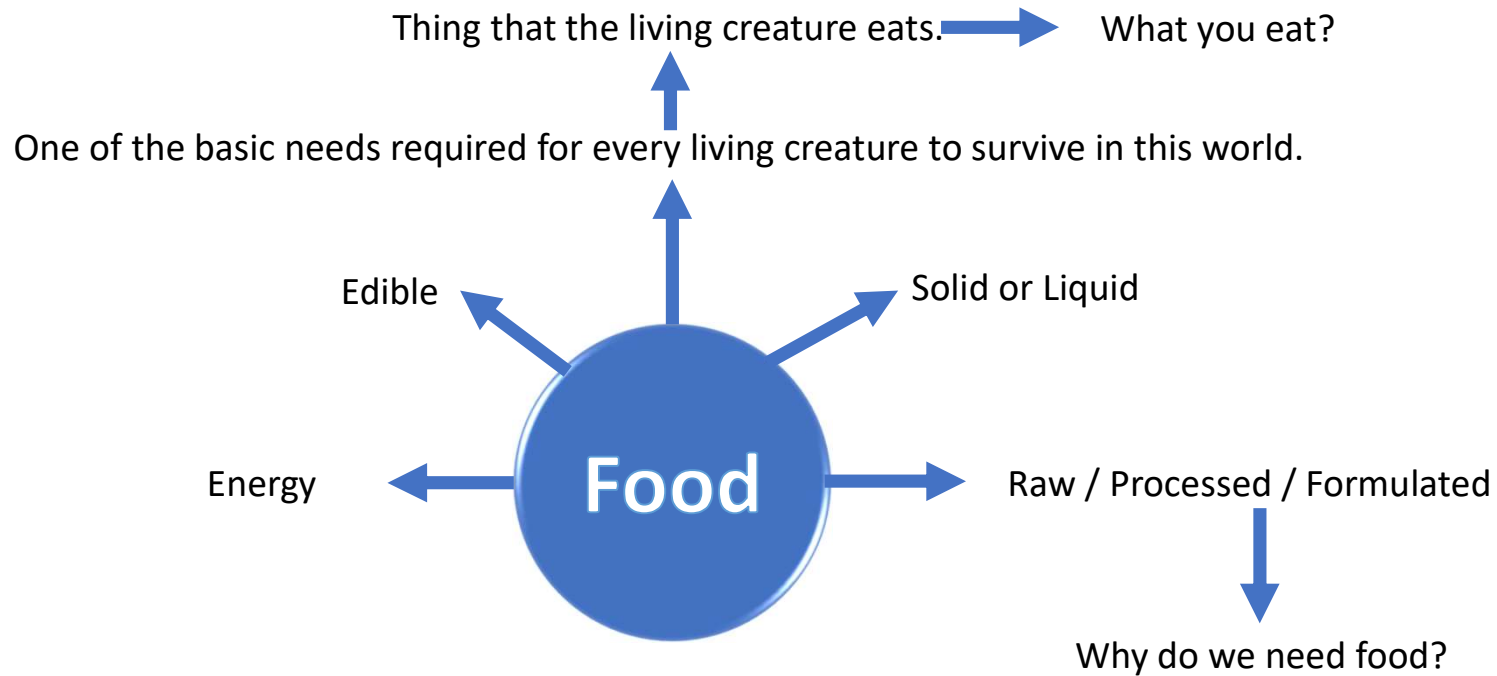

Happiness

❖ We can find the feelings which are naturally acceptable to us when we have this feeling we are happy and vice versa.

Sr. No.	Feeling	Naturally acceptable?	Happy: Yes or No	Feeling	Naturally acceptable?	Happy: Yes or No
1	Relationship	Yes	Yes	Opposition	No	No
2	Trust	Yes	Yes	Mistrust	No	No
3	Respect	Yes	Yes	Disrespect	No	No
4	Affection	Yes	Yes	Jealousy	No	No
5	Love	Yes	Yes	Hate	No	No

- If you want to be happy you should have a good relationship with everyone and should respect your parents, teachers and elders and most important never argue with anyone.
- To be happy we can also practice yoga which keeps our mind and body relaxed.

Introduction:

Food is the essential edible substances required for getting energy to survive in the world.

Evaluation
